To Whom It May Concern:

This letter is to recommend Cristina Hernández and her company "Talleres y Conversaciones", whose services we have used since February 2009.

We have relied on Cristina's experience on numerous occasions and have found her methodology, professionalism and overall knowledge quite responsive to our needs. She has been assisting us facilitating a series of "PlayShops" with themes and topics such as Self Leadership and Auto Motivation, Empowerment, Emotional Intelligence, Communication Skills, Conflict Management, etc. In addition, her fees are also adequate.

I can confidently recommend her services as a solid and reliable supplier. If I can be of any further assistance, please feel free to contact me at +507 210 6581.

Sincerely,

Maersk Central America and Caribbean Limited
